# Instructions

---

## Training days & rest

One week consists of 4 training days. Use the remaining days to rest your body. Rest days are important and your body will really need them. Which days you train is up to you.

## Warm up & stretch

Warm up before every workout and stretch after each one. For warming up we recommend jogging, rope jumps, jumping jacks or arm circles.

## Hydration

Make sure you drink enough water before, during and after the workout. Take only small sips during the session and larger ones afterwards.

# Week Plan

## Week 1

- 1 CARDIO IS NOT SPANISH
- 2 NO LIMIT
- 3 CAFFEINE SHOT
- 4 FAT REMOVAL

Pause 45/140

4 Cycles

Jumping Jacks	45 sec
Squat Jumps	12
Lunges (each Leg)	12
Burpees	20
Squat Jumps With 180 Turn	10

# Closing Remarks

Keep always in mind that a transformation is no easy walk – it's a big step forward in your life. You need discipline, willpower and especially fighting spirit to succeed. Grab your chance and try hard to reach something others never will! There will always be days when you have no more desire, when the weather is too bad, when you can't see low carb or healthy food anymore. Nevertheless, you must stay tuned and keep going. Sooner or later you will be rewarded with success! Your body will get used to the change soon and you will feel much better and healthier. Get inspired and find your own way to bring proper nutrition and athletic success into harmony. Always set small goals for yourself to keep your motivation positive.

Muhammad Ali, one of the greatest of all time, once said: "If my mind can conceive it, and my heart can believe it – then I can achieve it." Surrender is no option and should never come to your mind. On lazy days I used training videos or epic music to motivate myself. After the workout I felt great and was glad to have overcome myself again.

*„I hated every minute of training, but I said: 'Don't quit. Suffer now and live the rest of your life as a champion.'“*

— Muhammad Ali
